wide variety of local faith, humanitarian, environmental, and peace groups.

Also known as World Healing Day and World Peace Day, the International Hour For Peace is an annual global event launched in 1986 by the Quartus Foundation to offer people all over the world an opportunity to gather for peace, love, understanding, and forgiveness through a simultaneous global mind-link at noon Greenwich Time on December 31<sup>st</sup> of each year. Based on the Quantum Physics principle that thought and prayer can direct energy and thus create reality, the event is designed to join millions of minds around the world to focus on and manifest lasting peace on Earth. 2019 is the 34th annual event both globally and in Fort Collins, and Northern Colorado events are continuing the theme of the United Nations International Day of Peace and the Fort Collins Peace Festival "Climate Action For Peace" in order to support the UN's efforts to "draw attention to the importance of combating climate change as a way to protect and promote peace throughout the world."
